# OUR VISION

To become a game-changing reliability and technology partner for industries and enterprises across the Kingdom of Saudi Arabia and the GCC region, by delivering AI-enabled, data-driven, and hands-on engineering excellence also including our specialized trading and contracting services.

Through the strengths of Sprinkles for industrial support services deep technical expertise and strong execution capability, we aim to enhance asset reliability, operational efficiency, and sustainable industrial growth across all sectors - including oil & gas, petrochemicals, power, manufacturing, and infrastructure.

# OUR MISSION

To deliver comprehensive, technology-driven reliability, engineering contracting, and specialized industrial support services that enhance the safety, efficiency, and long-term performance of assets across the Kingdom of Saudi Arabia and the GCC.

Sprinkles for industrial support services delivers end-to-end reliability, engineering, and contracting solutions designed to reduce downtime, improve asset lifecycle performance, and ensure safe, compliant, and efficient operations.

Our mission is to be the trusted partner of choice for oil & gas, petrochemicals, power, manufacturing, and infrastructure sectors — supporting industrial transformation and sustainability in alignment with Saudi Vision 2030.
